# Omar Saad

**AI Quality Assurance & Evaluation Specialist | Clinical Domain Expert (Healthcare)**

Egypt (remote) | +20 122 093 8872 | omar12209388@gmail.com
linkedin.com/in/omar-ashraf-saad | Portfolio: omar-portfolio-mocha.vercel.app

## PROFESSIONAL SUMMARY

AI quality assurance and evaluation specialist with nearly three years of remote experience reviewing AI-generated and human-annotated content across several platforms: LLM response evaluation, AI-agent assessment, audio and speech data annotation, content safety review and Arabic–English language evaluation. Licensed anesthesia technician with more than five years of clinical experience, applying clinical knowledge to healthcare-related AI content. Native Arabic, full professional English. Recommended by project managers and quality leads for accuracy, reliability and guideline adherence.

## CORE COMPETENCIES

**Evaluation:** LLM response evaluation; AI-agent evaluation (multi-step tasks); second-level audits of annotator scores and LLM-judge verdicts; guideline-based assessment; structured written feedback

**Quality assurance:** review of other contributors' submissions; fact-checking and independent research; content safety and policy-compliance review; PII identification

**Language and data:** Arabic–English evaluation and translation support; Arabic dialect identification; audio and speech annotation; visual question answering (VQA) annotation; content editing

**Domain:** healthcare and clinical knowledge from OR/ICU practice; prompt-engineering fundamentals

## AI QUALITY ASSURANCE & EVALUATION EXPERIENCE (REMOTE, FREELANCE / CONTRACT, CONCURRENT WITH CLINICAL EMPLOYMENT)

**Mindrift** — **May 2024 – Present**

*Part-time | AI Quality Assurance Specialist (Jun 2025 – Present) · AI Agent Specialist (Feb 2025 – May 2025) · AI Annotation Expert (May 2024 – Jan 2025)*

- Review work submitted by other domain experts for accuracy, completeness and guideline compliance, and provide detailed written quality evaluations.
- Perform second-level audits of annotator assessments and LLM-judge verdicts on AI-agent conversations; correct scoring discrepancies and document findings to improve evaluation consistency.
- Evaluated AI-agent behavior in multi-step tasks, including e-commerce and product-data scenarios, verifying catalog accuracy and compliance with structured evaluation criteria.
- Evaluated AI assistant responses in English and Arabic for safety, accuracy and appropriateness; identified policy-violating and sensitive content.
- Contribute to the design of benchmark research tasks used to test frontier AI models on multi-step research.
- Fact-check expert outputs and AI-generated content, including healthcare topics. QA scores of 97% or higher on Arabic-language annotation, as stated in a project manager's recommendation.

**AI Quality Assurance Expert** — **Sep 2026 – Present**

*micro1 | Contract*

- Review complex AI-generated responses and provide detailed human feedback to test model reasoning, accuracy and safety; check and annotate multiple data types for factual correctness.

**AI Model Evaluation Specialist – English & Arabic LLMs** — **Oct 2024 – Present**

*Outlier | Freelance*

- Evaluate AI-generated responses for accuracy, relevance and safety; annotate and label data supporting LLM development; provide English–Arabic evaluation and translation support.
- Identify errors and provide structured feedback against detailed quality guidelines.

**AI Training Data Specialist (Arabic–English voice and language models)** — **Jan 2024 – Present**

*Yandex | Freelance*

- Recorded and annotated bilingual Arabic–English audio; evaluated AI-generated responses for accuracy and quality; performed speech segmentation and annotation.
- Identified Arabic dialect characteristics to support dialect accuracy and culturally appropriate model behavior.

**AI Training Data Specialist** — **Oct 2025 – Present**

*RWS | Freelance*

- Rate and evaluate AI-generated responses against detailed client guidelines; apply QA feedback to improve rating accuracy and consistency.
- Via RWS's Moravia platform (Sep 2026 – Present): identify and flag personally identifiable information (PII) and assess privacy risk under client data-security guidelines.

**Content Editor & Copywriter – AI Training Data** — **Nov 2024 – Present**

*TELUS Digital | Freelance, project-based*

- Edit and refine written content to meet quality and style guidelines for AI training projects, ensuring clarity, accuracy and consistency.

**AI Data Annotator & Evaluator** **Feb 2025 – Mar 2026**
*Appen | Freelance*

- Data and content annotation, audio transcription and evaluation, and AI response rating across varied projects, following detailed guidelines.

**AI Data Quality Specialist – English & Arabic** **Dec 2024 – Jun 2025**
*Alignerr | Freelance*

- Arabic-language annotation on conversational and multimodal AI projects, including VQA annotation and human evaluation of Arabic conversational AI responses.

**AI Solutions Contributor** **Sep 2026 – Present**
*Uber AI Solutions | Freelance*

- Knowledge-based tasks including research and Q&A, content review and writing, and healthcare-related evaluation.

**AI Agent Specialist** **Oct 2026 – Present**
*Invisible Technologies | Freelance*

- Evaluate AI-agent performance, reasoning and reliability.

## CLINICAL DOMAIN EXPERIENCE

**Anesthesia Technician**, Sherbin Central Hospital, Ministry of Health & Population, Egypt – Nov 2021 to Present (full-time): perioperative support to anesthesiologists, anesthesia equipment readiness, airway and ventilator support, continuous patient monitoring.

**Anesthesia Technician – OR & ICU Support (Compulsory Military Service)**, central hospital, Wadi El Natrun – Mar 2022 to Aug 2023. **Anesthesia Technician Intern**, Mansoura University Oncology Center – Jan to Jul 2020.

## EDUCATION

**Diploma in Anesthesia Technology** **Jan 2018 – Aug 2020**
*Health Technical Institute of Mansoura, Mansoura, Dakahlia, Egypt | Graduated with honors*

## CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Licensed Anesthesia Technician – Ministry of Health & Population, Egypt (issued August 2021).
- Fundamentals of Machine Learning for Healthcare; Introduction to Clinical Data; Introduction to Healthcare – Stanford University School of Medicine (Coursera), Sep–Oct 2026.
- The Data to Decision Path for Infusion of AI in Healthcare; Foundation and Potential of AI in Healthcare – University of Colorado Boulder (Coursera), Sep 2026.
- AI Fluency: Framework & Foundations; AI Capabilities and Limitations; AI Fluency for Creative Work – Anthropic (Claude Academy), Aug–Sep 2026.

## LANGUAGES

**Arabic** – native | **English** – full professional proficiency | **German** – A1 (in progress)
